WER IST WALTER?

Resistance against Nazism, fascism, occupation and collaboration occurred throughout Europe during World War II. But how much do we know about this history in other European countries? Gathering 32 contributions and case studies on the history of this resistance, as well as on its transmission after 1945, especially in museums, the present book is an invitation to look at resistance in Europe in an interdisciplinary, international, transnational and comparative perspective. It is the result of the international research project “Wer ist Walter? Resistance against Nazism in Europe” which gathered historians, curators and other researchers mainly from Bosnia and Herzegovina, Croatia, France and Germany.
